## NORTHSTAR 171 & 177 VHF ANTENNAS

Uniquely designed quick-fit "no cable" mount system that enables the antenna to be unscrewed from the base, leaving the coaxial cable attached to the mount. This means the antenna can be removed quickly & conveniently w/o the hassle of dealing w/the cable. Antenna can be safely stored when not in use, adding years to the life of the antenna.

Adding mobile entertainment to the ever popular & fun of boating & water sports presents installation challenges different from those found in car stereo applications. BOSS® Marine addresses these challenges with coated circuit boards that seal out moisture, along with sealed switches & CD compartments to keep water out. Wherever possible, waterproof materials such as polypropylene & several plastics are used to ensure performance & durability in marine conditions.
